DETAILED ACTION

Response to Amendment

1. Amendments to claims 1 and 12 have been entered in the above-identified application. New claims 21-27 have been added. Claims 16-20 are withdrawn from consideration. ***Claims 1-15 and 21-27 are now under consideration.***

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-15 and 21-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claim 1 has been amended to recite a laminate which “is formed with an oxygen transmission rate of no more than 1,000 cm³(STP)/(m₂.day.MPa) as measured at 30°C and 0% relative humidity as well as at 30°C and 80% relative humidity. Similarly, new claims 25-27 recite laminates which are “formed with an oxygen transmission rate of no more than....”. However, it is unclear what is meant by “formed with an oxygen transmission rate...”. Do the laminates have the claimed oxygen transmission rates? Appropriate correction or clarification is required.

Response to Arguments

3. Applicant's arguments with respect to the rejection of claims 1-15 under 35 U.S.C. 103(a) as being unpatentable over by Obha et al. (US 6,605,344 B1) in view of Matsuo et al. (US 6,699,830 B1) have been fully considered and are persuasive. The rejection has been withdrawn.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
